

TODAY CLEANERS

Today Cleaners is a great example of “local”—we are a local company, local family, and we invest locally in our community. We believe Bakersfield is a great place to live, work, and raise a family. If I had to pick just a few things that describe the “best of” Today Cleaners, I’d focus on the words sustainability, investment, and customer service.

Sustainability is an important goal these days, and Today Cleaners has always been a huge proponent of sustainable cleaning methods to care for your valuable garments. The perfect example of this is our GreenEarth Cleaning process. Instead of using harsh, toxic chemicals to clean clothes, our exclusive GreenEarth process uses liquid silicone, which is basically liquified sand. Not only is this process safe for the environment, it cleans without being abrasive or damaging to clothing. It literally helps your clothes last longer because it is gentle on fabrics, dyes and trim. GreenEarth also prevents fading; whites are whiter, and colors are brighter.

Jeff Newman Jr.
Owner

Investment isn’t just about money. It’s also about time and creating opportunity for the people who work for us. Today Cleaners invests regularly in the most advanced

equipment to ensure the highest quality and best service possible. We also heavily invest in our employees, helping them to achieve their full potential at Today Cleaners. We firmly believe happy, knowledgeable, and well-trained employees are better able to serve our customers and help our business be successful. Investing in our community is also very important to us, and it is our honor to partner with several local organizations to impact the lives of those less fortunate. Giving back to our community makes it a better place for all of us.

Finally, our customers are the most important part of our business, so we do everything we can to provide them the best service possible. Our friendly and efficient staff members, “In by 11, Ready by 4” service, Monday through Saturday, Express Service, with our express bags, 24 hour drop boxes and secure credit card on file pickup option, and our superior cleaning and finishing processes, are what has made Today Cleaners the “Best of Bakersfield” for 27 years running. Thank you for trusting Today Cleaners to help you look your best!
